

Motorhome / Caravan Pre-Season Checklist

We recommend completing a thorough check after any storage period. If time is short, Bristol Caravans can complete this check for you.

Water & Plumbing

- Drain down any remaining water from storage
- Fill and sterilise fresh water system
- Pressurise the system and check for leaks, paying particular attention to all taps.
- Check water heater operation on LPG and 230V

Cooking & Heating

- Check fridge operation (LPG and 230V)
- Test room heater (Truma Combi / ALDE) on LPG and 230V
- Check hob on LPG (and 230V if applicable)
- Test oven on LPG
- Test grill on LPG

Electrical & Battery

- Charge 12V leisure battery
- Check 12V leisure battery condition and connections
- Check 230V mains supply and rcd operation manual then hook-up system

Vehicle & Safety Checks

- Check and adjust tyre pressures
- Check tyres for damage and cracks
- Check road lights
- Torque road wheel bolts
- Inspect stabiliser pads (caravan only)

Service & Documentation

- Record all service and maintenance dates
- Note any repairs or items needing attention
- Keep a camera with so you can keep track of any damaged parts to show your dealer

Cleaning

- Wash your vehicle, it will help you check all the hidden places for damage

- **Complete a thorough inside clean, check for signs of Mr & Mrs Mouse visitor**
